EXECUTIVE SUMMARY

Overview

A full audit of **divinespaceconstruction.com** was conducted by Social Daddy Inc. covering all pages: Homepage, Services, Products (Quartz, Front Elevation), About, Contact, and Portfolio. The audit identified **12 confirmed errors** across visual, content, grammar, technical, and SEO categories. Several issues are critically damaging to the brand image and user experience, including a broken video on the hero section, Google Maps API failure, wrong products appearing under the Quartz category, and a completely irrelevant smartphone image on a construction products page.

Area	Status	Notes
Visual Design	■ Issues	Black hero screen, broken images in process section
Content	■ Issues	Wrong products, wrong images, incomplete sentence
Grammar	✗ Errors	Subject-verb agreement, adverb errors, misspellings
Navigation	■ Issues	Emoji in nav, duplicate buttons, inconsistent caps

Area	Status	Notes
Google Maps	✗ Broken	API key not configured — error visible to all visitors
SEO	✗ Critical	Not indexed by Google, no unique title/meta per page

04

Broken Images in Work Process Section

● CRITICAL

■ Homepage / Our Process

The 'Design & Planning' and 'Estimate Design' steps in the Our Work Process section both show broken image icons with alt text visible instead of actual images. The image files are either missing, have incorrect paths, or failed to upload.

■ Fix: Re-upload the correct process step images and verify the file paths in the CMS or code. Use properly sized images (recommended 600x400px minimum).

08

About Page — Incomplete Sentence

● HIGH

■ /about

The 'Our Story' section contains an unfinished sentence: 'Founded on the principles of architectural integrity and modern engineering...' — it trails off with three dots and never completes. This looks like placeholder text that was never filled in.

■ Fix: Complete the sentence with the company's founding story. Example: 'Founded on the principles of architectural integrity and modern engineering, Divine Space Construction has delivered premium renovations across the GTA.'

11

Gmail Email Address in Footer & Contact Page

● MEDIUM

■ Footer + /contact

The company email shown is Divinespaceconstruction@gmail.com — a free Gmail account. For a brand positioning itself as premium and luxury, this is highly unprofessional and undermines client trust at the moment they are about to make contact.

■ Fix: Set up a professional domain email such as info@divinespaceconstruction.com or hello@divinespaceconstruction.com using Google Workspace or similar.

12

Site Not Indexed by Google — No SEO Titles or Meta

● LOW

■ Entire Website

A Google search for site:divinespaceconstruction.com returns zero results — the site is completely invisible to search engines. Compounding this: every single page (homepage, contact, about, products) shares the same title tag 'Divine Space Construction | Premium Luxury Renovations'.

■ Fix: 1) Submit site to Google Search Console and request indexing. 2) Add unique title tags and meta descriptions per page. The site uses JavaScript-only rendering which makes crawling harder. 3) Consider adding server-side rendering (SSR) or static site generation. 4) Create and submit a sitemap.xml. 5) Verify robots.txt is not blocking crawlers.

Additional Issues

Issue	Location	Fix
No currency symbol on product prices	/products/quartz	Add \$ or CAD before all prices (32.00 → \$32.00 CAD)
Duplicate 'Get Free Quote' button	Navigation Bar	Remove one of the duplicate CTA buttons from the nav
'Estimate Design' — backwards label	Homepage / Process	Rename to 'Design Estimate' or 'Cost Estimation'
'Build Design' — awkward phrasing	Homepage / Process	Rename to 'Build Phase' or 'Construction'
Generic copy-paste product desc.	All product categories	Write unique descriptions per category — not the same template text

Issue	Location	Fix
No Sunday hours listed	/contact	Add 'Sunday: Closed' to working hours for clarity
Broken page routing	/services, /gallery	These URLs show homepage content instead of dedicated pages

SECTION 05
